Technical Skills

Front-End: HTML, CSS, JavaScript, React.js, Tailwind CSS

Data Science Tools: Pandas, Numpy, Matplotlib, Seaborn, ML, Web scrapping.

Back-End: java, Spring boot, Mysql (Sql), Django (Python).

Design & Animation : Figma, Adobe illustrator.

Tools & Deployment: Git, GitHub, Figma, Vercel, Netlify.

Experience

With over 2 years of experience in Data Science and Web Development, I specialize in building intelligent and user-centric applications. I have developed a strong foundation in both frontend and backend technologies, enabling me to turn ideas into fully functional systems. My projects reflect practical implementation of programming concepts along with data-driven solutions. I am particularly interested in data visualization and automation, aiming to solve real-world problems through technology. I strive to deliver impactful and scalable digital experiences. I also use AI tools to make my project more scalable and attractive.

Projects

Library-Management-System

- Built a web-based system to replace manual library record management.
- Implemented CRUD operations using PHP and SQL for efficient data handling.
- Designed responsive UI to simplify book and user management.
- Reduced manual errors through structured database operations.

Hospital-Management-System

- Developed a full-stack system to streamline hospital operations and patient management.
- Implemented Heap (Priority Queue) for efficient emergency patient triage.
- Used Quick Sort for optimized doctor scheduling and management.
- Built role-based dashboards to ensure secure and organized workflows.

Vehical-Rental-System

- Developed a console-based rental system to address manual vehicle booking and billing challenges.
- Implemented multi-vehicle rentals, cost calculation, and invoice generation.
- Added late return and damage fee handling for real-world simulation.
- Applied OOP principles (inheritance, abstraction, composition) for scalable design.

Education & Certifications

GIFT University, Gujranwala

Bachelor in Data Science

Present

Kips College

Intermediate in Pre-Engineering

2022 – 2024
